“Understand from Egypt Charge d’Affaires that it was at Sadat’s insistence that Reagan Administration suspended delivery of aircraft to Israel and this may be consideration for Sadat’s statement that Egypt Israel peace process would continue despite Egyptian condemnation of Israel attack on Iraqi nuclear installations. Chargè D’affaires added that he was confident there would be some further act by Egypt affecting the peace process in view of strong Arab and Egypt public feeling on this issue and also having regard to danger to Egypt’s own nuclear installations if high handed Israeli action goes unpunished.”
