Communications will be established with the exercise control staff before the start of the advance and on departure for the designated areas: government telephone and secure telephone via radiorelay or landline communications channels: R[adio] - via radio net Nr 5?1...radio link 528 via a special communications group sent to the disposal of the HQ of the army, and also mobile communications equipment. During the advance communications [are to be] via radio and mobile equipment. The operations group of the Polish armed forces General Staff with the exercise control staff is to have a radio station for the receipt of codeword messages from the division (last) and units and it is to be provided with the necessary [keying] documents for operation in its own radio net to [report]: the departure for the departure area, [approximately two words garbled] in the course of the performance of missions - every hour [one word garbled] and departure to the designated areas. Logistical support of the troops of the 2nd Army is through their own resources
and in accordance with the plan of the Polish Armed Forces General Staff. Please brief the formation and unit commanders that the mission of the troops being brought into the territory of the CSSR is to assist the organs of people's power in the suppression of counterrevolution and the restoration [of order] in the country. Therefore it is necessary to establish [one word partly off the page] relations with the troops in the course of the performance of the assigned mission. If the troops [of the CNA] greet the entry of the allied forces with understanding, coordinate with them to jointly carry out the assigned mission. When individual CNA subunits [one word partly off the page] counterrevolution localize them and subsequently disarm them. Use weapons in the event the other side uses them.
