About the last operation/ operational mission of comrade [redacted].

Between 1979 and 1981 comrade [redacted] was stationed as a resident in Teheran.

In 1981 the Soviet-Iranian relations heated up (Mass persecutions, arrests and executions of operatives of the Tudeh-Party; temporary occupation of the UdSSR-Embassy by the revolutionary-guards, mysterious disappearance (probably treason) of the soviet counselor [redacted]).

For security reasons comrade [redacted] had to leave Teheran in this situation. (Shortly after his mission started, his successor was declared a persona non grata alongside other soviet diplomats).

During his operation in Teheran comrade [redacted] was in contact with the resident of the MfS. He widely supported our resident, a.m.

- with the assessment of the situation

- with the retransition/return of a DDR-citizen (f) recruited by the enemy (overland to the Caspian sea and from there with a soviet ship to the UdSSR);

- with the preparation of an outward transfer of a DDR-citizen (m) (IMES-employee), who resided in the DDR-Embassy and against whom the Iranian authorities filed a request for extradition (outward transfer should take place with the help of a Bulgarian-Iranian transportation company, to which the comrade [redacted] had operational ties).

Comrade [redacted] wasn’t in the DDR so far. According to synopses at hand he did not receive an award by the MfS yet.
