Meeting Preparation

Meeting was planned.
Main focus: situation among Iranian emigres

Meeting Assessment:

The IC handed over translations of foreign publications on the situation in Iran.

On the situation among Iranian emigres the IC reported that the majority of the functionaries of the Party have gone off to Iran. There a resolution on this from the Central Committee (list of those who have left is attached).

On the individuals who remain in the GDR, most are for reasons related to family--there are no instructions from the Party. These individuals have been abandoned.

New assignment and connections

The possibilities of the IC's return to Iran was discussed. The IC appeared indecisive on this question, but wants to follow our interests primarily. The IC sees the following problems with a return to Iran:
- until now he has not had a passport
- career in Iran
- Housing problems
- His isolation from the Party leadership

It was determined:
1. The IC will take care of obtaining an Iranian passport through the Iranian Embassy. The problem is that there are no new passports.

2. If he obtains a passport, he will then travel to Iran for a visit, and familiarize himself with the situation there and prepare for his final return.
