Summary:

Question regarding Soviet role in falsifying evidence of American biological weapons.

Original Language:

Russian

Contents:

Translation - English

In March 1952 before the arrival in Korea of a delegation of the International Association of Democratic Jurists, the Minister of State Security of the USSR, Ignatiev S.D., received a memorandum (to "Denisov") from Glukhov-former adviser of the Ministry of State Security of the DPRK and Smirnov-former adviser of MVD [Ministry of Internal Affairs] DPRK about the fact that with the help of the ambassador of the USSR in the DPRK, Chief Military Adviser to the KPA Razuvaev V.N., two false regions of infection were simulated for the purpose of accusing the Americans of using bacteriological weapons in Korea and China. Two Koreans who had been sentenced to death and were being held in a hut were infected. One of them was later poisoned.

Ignatiev did not report this memorandum, which had special political importance, to anyone. As a result, the Soviet Union suffered real political damage in the international arena. I discovered this document in the archive of the MGB USSR upon receiving the matter at the beginning of April 1953.

I ask your decision regarding [the question of] investigating the circumstances of this question and naming the guilty parties.

Beria
