Summary:

Email from ITAIN Division to South Asian Romp n' Stomp regarding the state of cables at an Indian nuclear facility. According to this message, the cable at the test site had changed its shape again, from a thick cable to two smaller connected cables. The "Stemming pile" is a reference to the mound of dirt that would cover the test device once it had been placed in the hole. The meaning of the acronym "ITAIN" is presently unknown, as it the jokey reference to "South Asian Romp n' Stomp."
