

TOP SECRET--INSTRUCTIONS TO THE ROK DELEGATION

1. All the Free Nations of Asia ~~join~~ should join in guaranteeing eternal security for each other through the prevention of aggression and the maintenance of peace. This campaign should be based upon the principles of freedom and justice, and should be implemented by Asiatic peoples united in a firm alliance.

2. The attempt of the Soviet Union to conquer the world through the Communist Party should be resisted absolutely. Effectiveness of this resistance will depend upon the collective power and the unity of purpose shown by all the Asian nations. There should be full expression of the spirit of freedom and of the impossibility of co-existence with Communism.

~~3.~~  
3. All the Free Nations of Asia should refuse to acquiesce in any further attempts at imperialism and colonialism by non-Asiatic powers.

4. It is our position that Japan <sup>as</sup> ~~is~~ yet provides no evidence of becoming a trustworthy nation. The aggressive record of the Japanese is well known to all and need not be repeated here. Today the Japanese are being built up to a new level of military strength with the <sup>aid of the</sup> United States. But the truly Free Nations of Asia do not know (1) that the Japanese are thoroughly anti-Communist, and (2) that the Japanese have really renounced aggression. Until the Japanese prove by word and action that they <sup>have</sup> ~~changed~~ their ways, the other countries of Asia must make certain that they are prepared for aggression from ~~any source, be it Communist or any other~~ all sources, be they Communist or any other.

5. Both World Wars were fought in the ~~interest~~ interest of Western imperialism, but only the Soviet Union emerged with material gains. Russia today is nearing the ~~the~~ occupation of half the world, and is deceiving countless millions with the lies of Communism. The principal goal of the Soviet has become the destruction of the United States, which the Soviet falsely tries to depict as an aggressor nation. We of Free Asia know, however,

2-

that the United States has never been an aggressor in the Orient, but instead has been helping us. The United States insists on ~~the~~ recognizing the full rights of all nations, and therefore should be considered as the friend of the Free World. Whenever the United States understands our principles and our policies, and offers to cooperate with us, we should help and act with her within the limits of Free Asia's area of potentiality and interest.

6. All of us should pledge ourselves to collective security through the mutual cooperation and collaboration of the Free Nations of the Orient. Each of us should seek to share peace and prosperity through a fair division of interests, responsibilities, and potentialities. If this is to be achieved, we must have mutual confidence, mutual assistance, social and cultural exchanges, and free trade. We must, in brief, discard selfishness and concentrate on helping one another for the benefit ~~of~~ of all.
