The Honorable Director of Intelligence Service  
Subject: Meeting

In compliance with your directive, the intentions committee has held a meeting in the evening of 28/8/1995 and has discussed the following matters:

1. The behavior of traitor Husayn Kamil during the last four years.
2. The impetus behind his escape and the reasons for this particular timing?
3. The position of King Husayn and the reason for hosting this criminal Husayn Kamil, and whether his position (King Husayn) is surprise to us?
4. Our Intelligence Service information during the last years with regard to the presence of a person close to the President, the Commander may God protect him and that person relation with a foreign entity.
5. The increased American escalation following the escape Husayn Kamil which is manifested in the movement of U.S forces to the area and conducting military maneuvers in Jordan and Kuwait.
6. The Intelligence Service available information with regard to American intentions in identifying an alternative to Mr. President, the Commander, may God protect him within the family.
7. The ideas and comments that were proposed during the committee meeting

Signed  
Intentions Secretary  
30/8

Mr. Blank

With regard the matters stated above:

A. We were able to gather the following actions perpetrated by traitor Husayn Kamil during the last period:

First: He brought several -- outside the party -- officials and some shady characters like the imbecile (Minister of Petroleum).

Second: He formed a circle of officials around him and within industrialized institutions whose loyalties are to him not the country.

Third: he strived for getting rid of ration card and canceling employees sign in logs.

Fourth: He protected personalities within Industry Power entities who are assigned to us but we have some information about them.

Fifth: His ploy was manifested in his attempts to defeat Mr. President, the Commander, may God protect him and making him appear as a failure by demonstrating his shortfalls highlighting the country's economic deterioration commenting that this was caused from the onset when Mr. President has assumed the position of Prime Minister.

[Page 5:]

Presidential Directorate  
Intelligence Service

Sixth: Practicing a policy of sabotaging the economy and giving false promises to citizens.

Seventh: Establishing economically unproductive projects (two-level bridges, Saddam Communication Tower) which resulted in worsening the economy's inflation.

Eighth: His pursuit of making himself an Icon equals in stature to Mr. President, the Commander, may God protect him, as persons who accompanied him regarded themselves as untouchable by the law.

Ninth: He was always cautious from Intelligence.

B. You will find below special indicators of his escape:

First: Mr. President, the Commander, May God protect him, ordered the placement of Industrial entities under the supervision of Diwan / Presidential Financial Audit.

Second: King Hussayn has established a personal relationship with him following his surgery and his daily visits to the king. We do not exclude King Hussayn giving the Americans a brief about him. It is possible that King Hussayn started to talk with him that the Americans saw a potential in him that he could be a substitute to the President,

[Page 6:]

Presidential Directorate  
Intelligence Service

And that solving the Iraqi problem is limited to Mr. President and that Husayn Kamil's description qualifies him to play a role in rescuing Iraq.

Third: Acknowledgment of his diminished role following the Last Party meeting during his travel outside the country, it is not excluded that he probably thought about nominating himself for the Leadership position, however, he was nominated during the last conference and did not succeed.

Fourth: The Special Security Department started to conduct investigation and monitoring of Husayn Kamil, his relatives and his contacts.

Fifth: The period in which he escaped has coincided with the following:

1. America's pressure to achieve an agreement between Kurds and stopping intransigence among themselves and coordinating with them to attack Iraqi military formations
2. American military exercises with Jordan near the Iraq border
3. American Military exercises in Kuwait

[Page 7:]

4. Deployment of American Forces in the region.

C. King Husayn's role in the matter:

First: The king is the one who convinced Husayn Kamil as a qualified substitute to Mr. President — God forbid.

Second: The King coordinated the matter with the Americans.

Third: The king coordinated timing of Husayn Kamil's escape and coordinated it with the Americans.

Fourth: He invested his relation with the Traitor to reinstate his Gulf States.

Fifth: King Husayn has informed the Americans and Gulf States that Husayn Kamil has confided him that Iraq intends to attack Kuwait and Saudi Arabia.

D. Available indicators with Intelligence Service regarding the presence of a person close to the Leadership with a relation with a foreign entity.

First: At the early part of 1995, American Intelligence and U.S Congress has received information that Mr. President the Commander will remain in power for (6-8) months if economic sanctions remained

[Page 8:]

Presidential Directorate  
Intelligence Service

As it is and that the successor will be from Party and military ranks

Second: In March 1995, Senior U.S and British intelligence Officers and former Iraqi officers have met in London and resulted in secret information and have discussed the action plan against Iraq that it will start with Military Units rebellions in the South and the infiltration of supporting Iranian forces and that Saudi Arabia and Kuwait will assume the role of supplying food items and pharmaceuticals and America's role will be air cover and finance.

Third: On 1/5/1995, Newsweek magazine published a CIA report stating that the Iraqi President could be in power for (6-8) month as long as the economy is going and Security resources such as the Republican Guards and private Security and the Special Security Forces are functioning.

Fourth: Following the criminal escape [Husayn Kamil] the Secretary of Defense William Perry announced on 15/8/1995 that he invites the (Iraqi opposition)

[Page 9:]

Presidential Directorate  
Intelligence Service

To stand behind Husyan Kamil as he represents an alternative to Mr. President, The Commander, God Forbid, as he is a strong Sunni man and is capable of maintaining order.

E. The Latest American escalation took the following forms:

First: Periodic media announcements by a highly senior U.S officials that includes attacks on the country and its leadership that started at the end of July and coincided with Husayn Kamil's return from White Russia Belarus.

Second: Jalal Talabani the traitor instigated attacking our forces in the North.

Third: U.S escalation and deployment of forces in the region, increasing their pre-positioning military assets in Kuwait.

Fourth: Delaying the return of U.S Air carrier Abraham Lincoln from the Gulf until the arrival of air carrier Independent.

[Page 10:]

Presidential Directorate  
Intelligence Service

Fifth: Starting the Kuwaiti American military maneuvers earlier than scheduled.  
Sixth: Highlighting U.S Jordanian military maneuvers through media coverage.  
Seventh: Release of U.S announcement denying the lifting of sanctions on Iraq in an attempt to demoralize the Iraqi people.

8. Committee Director

- A. Following up the American position during July 1995, it became evident that the American Administration attempted to comfort the Iraqi regime that there are good American intentions in easing sanctions or opening a secret channel for dialogue (the mediation of congressman [illegible] and the received signals from the CIA to arrange a meeting). It appears that all of this was nothing but a cover to evade their true seditious intentions manifested in the escaping of this criminal Husayn Kami, it was also accompanied by an intensive media campaign and mobilization of forces.
- B. It is apparent that the escape of this traitor Husayn Kamil has given a powerful boost to the hopes of American Administration to achieve their doomed objective.

[Page 11:]

Presidential Directorate  
Intelligence Service

Manifested in their desire to topple the National Regime in Iraq, God's forbid, there is no doubt that Americans had exaggerated impressions about the traitor Husayn Kamil, his political strength inside Iraq and about the security situation inside. It is apparent that the Traitor has informed them of Iraq intentions (a1-`Ubur Document).

- C. The size of U.S military mobilization has placed American forces at a state of alert, likewise media campaign that promoted war and to increase psychological pressures against the country political leadership, still placing their agents whom they call overseas opposition to unite their confrontation against the regime.
- D. The escape of Husayn Kamil has made the American Administration to reflect on their hostile position manifested in prolonging the embargo, likewise, it is not excluded that America and its allies in the region invest their relation with the criminal inside the country especially with Military Leadership in the form of encouraging him for a military operation

[Page 12:]

Presidential Directorate  
Intelligence Service

That will result in chaos which will give the American an excuse for intervention.

- E. Regardless of U.S intentions, whether secret or overt, the current policy of self control which is adopted by political leaders is suitable for avoiding any confrontation.
- F. We will conduct another meeting at a later time for the purpose of discussing ideas and comments at a wider scope; however this will take place after unifying all opinions of party sections, departments and directorates in this regard.

Kindly review with utmost appreciations

Signed

M. `Ayn M4

Comment: We have to link these indicators and discuss them as well as analyzing the American Jordanian scenario in light of European countries policies (Russia, France, England, Italy, Germany etc) How does the enemy think of the opposition [illegible]
